

Job Descriptions – Mobi App Developers

Want to challenge yourself in rewarding IT projects within talented people who love music, food, board games and... their office (where they enjoy all the prior)?

Hello! Let's get to know each other!

Enable Startup is a one-stop IT solution provider based in Da Nang, Vietnam. Founded in 2016 on genuine passion for technologies, we have since then embarked relentlessly on 50+ projects with 30+ global businesses of all shapes and sizes across 12 countries. Those challenging yet rewarding endeavors have honed our technical skills to fulfill world-class standards, while complementing our delivery capacities with solid industrial know-hows and best practices.

We provide startups and enterprises with tailor-made solutions that cover the gamut: from IT consulting to full-service software engineering execution and custom product development. Learn more about [our services](#)

Currently, we are home to 30+ talents with a broad spectrum of expertises: enterprise & startup consultants, data scientists, software engineers, designers and marketers. To achieve our team expansion roadmap in 2026, we are looking for **Mobi App Developers**.

What you'll do

- Develop and maintain mobile application features (UI + logic)
- Integrate mobile apps with backend APIs
- Handle data flow between mobile app ↔ backend services
- Debug and fix issues across UI, API, and data handling
- Collaborate with designers, backend engineers, and product team
- Continuously improve app performance and user experience

Is it YOU we are looking for?

Must-have

- At least 1 years of experience working with Kotlin and Android development
- Familiarity with:
 - Android Studio
 - Activity / Fragment lifecycle
- Understanding of:
 - REST APIs
 - asynchronous programming (coroutines / callbacks)
- Ability to build basic UI screens and integrate APIs
- Familiarity with Git
- Strong problem-solving mindset and willingness to learn

Nice-to-have

- Experience building Android apps
- Strong logical programming thinking, ability to solve problems quickly and efficiently
- Preference given to candidates with Design Pattern knowledge
- Experience with IAA and IAP in Mobile Apps is an advantage
- Ability to work independently as well as collaboratively in a team environment
- Preference given to candidates with products already live on the Play Store
- Proactive, eager to learn, and always ready to improve skills.

Why you'd love working with us

- Truly a friendly, non-hierarchical and fast-growing working environment. We promise you a great work-life balance with little-to-no OT (and if it occurs, it's paid!).
- Strongly focusing on personal development and satisfaction with a dedicated training roadmap as well as a clear career path designed for each individual.
- Very ideal for tech lovers since we adopt the latest trends as they emerge.
